## List of tables

---

|                                                         |     |
|---------------------------------------------------------|-----|
| Table 1                                                 |     |
| Cables required to upgrade to option 81C .....          | 71  |
| Table 2                                                 |     |
| Twelve upgrade configurations and required cables ..... | 76  |
| Table 3                                                 |     |
| NT8D34 CPU Module cabling .....                         | 101 |
| Table 4                                                 |     |
| NT6D39 CPU/Network Module cabling .....                 | 102 |
| Table 5                                                 |     |
| NT8D35 Network Module cabling .....                     | 103 |
| Table 6                                                 |     |
| NT8D37 IPE Module cabling summary .....                 | 104 |
| Table 7                                                 |     |
| NT8D37 IPE Module T&R Cable A .....                     | 105 |
| Table 8                                                 |     |
| NT8D37 IPE Module T&R Cable B .....                     | 107 |
| Table 9                                                 |     |
| NT8D37 IPE Module T&R Cable C .....                     | 109 |
| Table 10                                                |     |
| NT8D37 IPE Module T&R Cable E .....                     | 111 |
| Table 11                                                |     |
| NT8D37 IPE Module T&R Cable F .....                     | 113 |
| Table 12                                                |     |
| NT8D37 IPE Module T&R Cable G .....                     | 115 |

|                                              |     |
|----------------------------------------------|-----|
| Table 13                                     |     |
| NT8D37 IPE Module T&R Cable K . . . . .      | 117 |
| Table 14                                     |     |
| NT8D37 IPE Module T&R Cable L . . . . .      | 119 |
| Table 15                                     |     |
| NT8D37 IPE Module T&R Cable M . . . . .      | 121 |
| Table 16                                     |     |
| NT8D37 IPE Module T&R Cable R . . . . .      | 123 |
| Table 17                                     |     |
| NT8D37 IPE Module T&R Cable S . . . . .      | 125 |
| Table 18                                     |     |
| NT8D37 IPE Module T&R Cable T . . . . .      | 127 |
| Table 19                                     |     |
| NT8D37 IPE Module SLO loop cabling . . . . . | 129 |
| Table 20                                     |     |
| NT8D37 IPE Module SL1 loop cabling . . . . . | 130 |
| Table 21                                     |     |
| NT8D37 IPE Module SL2 loop cabling . . . . . | 131 |
| Table 22                                     |     |
| NT8D37 IPE Module SL3 loop cabling . . . . . | 132 |
| Table 23                                     |     |
| NT8D13 PE Module T&R Cable A . . . . .       | 133 |
| Table 24                                     |     |
| NT8D13 PE Module T&R Cable B . . . . .       | 135 |
| Table 25                                     |     |
| NT8D13 PE Module T&R Cable C . . . . .       | 137 |
| Table 26                                     |     |
| NT8D13 PE Module T&R Cable D . . . . .       | 139 |
| Table 27                                     |     |
| NT8D13 PE Module T&R Cable E . . . . .       | 141 |
| Table 28                                     |     |
| NT8D13 PE Module T&R Cable F . . . . .       | 143 |

---

|                                                     |     |
|-----------------------------------------------------|-----|
| Table 29                                            |     |
| NT8D13 PE Module T&R Cable G . . . . .              | 145 |
| Table 30                                            |     |
| PE Module cabling summary . . . . .                 | 147 |
| Table 31                                            |     |
| NT8D13 PE Module Network Loop Y, Cable J2 . . . . . | 148 |
| Table 32                                            |     |
| NT8D13 PE Module Network Loop X, Cable J1 . . . . . | 150 |
| Table 33                                            |     |
| NT8D47 RPE Module cabling . . . . .                 | 151 |
| Table 34                                            |     |
| NT8D11 XCPE Module cabling . . . . .                | 152 |
| Table 35                                            |     |
| NT8D11 XCPE Module T&R Cable A . . . . .            | 153 |
| Table 36                                            |     |
| NT8D11 XCPE Module T&R Cable B . . . . .            | 155 |
| Table 37                                            |     |
| NT8D11 XCPE Module T&R Cable C . . . . .            | 157 |
| Table 38                                            |     |
| NT8D11 XCPE Module T&R Cable E . . . . .            | 159 |
| Table 39                                            |     |
| NT8D11 XCPE Module T&R Cable F . . . . .            | 161 |
| Table 40                                            |     |
| NT8D11 XCPE Module T&R Cable H . . . . .            | 163 |
| Table 41                                            |     |
| NT8D11 XCPE Module T&R Cable K . . . . .            | 165 |
| Table 42                                            |     |
| Cabling between two NT8D34 XSCPU Modules . . . . .  | 167 |
| Table 43                                            |     |
| Cabling between two NT8D35 XNE Modules . . . . .    | 167 |
| Table 44                                            |     |
| Network to junctor cabling . . . . .                | 168 |

|                                                 |     |
|-------------------------------------------------|-----|
| Table 45                                        |     |
| System option 61 cabling . . . . .              | 169 |
| Table 46                                        |     |
| System option 71 XSCPU to XNE cabling . . . . . | 170 |
| Table 47                                        |     |
| Network to PE cabling . . . . .                 | 171 |
| Table 48                                        |     |
| NT7D19 Meridian Link Module cabling . . . . .   | 172 |
| Table 49                                        |     |
| Meridian 1 cable vintage correlation . . . . .  | 173 |
| Table 50                                        |     |
| Discontinued cables . . . . .                   | 175 |
| Table 51                                        |     |
| Old apparatus to new PEC code . . . . .         | 175 |
| Table 52                                        |     |
| New PEC to old apparatus code . . . . .         | 178 |
